Level II Low Level Hand Gun

- * All shots taken at a 6 metre standoff
- 1) Glock semi-auto hand gun 9mm Luger (Parabellum) 124 gr.
- 2) Smith & Wesson Revolver/ 44 Magnum S&W S&P 240 gr.
- 3) Smith & Wesson Revolver/ 357 Magnum S&W R&M 158 gr.
- 4) Rem-UMC Sub-Machine Gun/ 9mm Luger (Parabellum) 124 gr.

An example of the protection provided by the armoring of vehicles. None of the shots passed the rear side of the door.

Armoured Land Rover Defender 110

For Hire or Sale
This vehicle is available for hire or sale to the media at short notice and can be delivered to our customers anywhere in the world.
The Land Rover is highly armoured to the following specification:
5.5mm High hardness steel plate to all vertical surfaces
3.5mm High hardness steel plate to roof
3.0mm Anti-blast material to floor – including blast shield beneath transmission
3.5mm Glass/polycarbonate transparent armour
The vehicle was originally built to withstand 7.62 x 39 ball rounds at 25 metres and 7.62 x 51 ball rounds at 40 metres. It has now been upgraded by the fitting of 6mm Kevlar boards to the sides and rear panels of the vehicle.
The suspension has been upgraded by the fitting of:
Front and rear anti-roll bars
Upgraded front springs
Twin coil springs to rear
Adjustable rear coil-over shock absorbers
The original wheels and tyres have been replaced with XZY tyres on 8.5 rims complete with run flat safety bands.
The vehicle is air conditioned and has been completely overhauled mechanically in 2002.

“ This is an entirely new breed of listening device based around GSM technology as used in GSM cellular telephones. Each unit comes with its own telephone number which you can dial into from anywhere in the world. These units give you unlimited range and the ability to hear, with crystal clarity, what is being said in the “target” area. All powered from the mains, this equipment is legal for sale and use everywhere within the EU. ”

“ Terrorist activity has increased dramatically over recent years. Threat levels have been elevated and everyone is aware of the need for added security awareness. The following products are now being used widely in governmental and corporate environments. ”

Bomb Jamming Equipment

CODE FS1491
Specifically designed to prevent the radio controlled detonation of explosive devices. Used in all major security operations, particularly those involving Heads of State, Government Ministers and anyone at obvious risk. Manufactured to order with specified frequency coverage and windows for use by security personnel. Portable backpack or vehicle mounted.
Size: 300 x 300 x 105 mm. Weight: 8.4kg.

10k Mail Scanner

CODE FS1492
Provide reassurance to mailroom staff or at home with this simple to use unit, which quickly screens bundles of mail or parcels up to 6cm thick. Automatic alarm detects common mail bomb components regardless of the type of explosive used. Requires no calibration or operator training.
Size: 460 x 460 x 205 mm. Weight: 8kg.

Scanmax 20

CODE FS1493
Combining a large inspection chamber with a compact cabinet size allowing the examination of volume mail large parcels and briefcases in areas where space is limited. A single button produces a clear image of the contents in seconds. Available with colour or mono monitor, automatic image enhancement, negative inverse, 8 x zoom and much more. Complies with all published international electrical safety and radiation standards.
Size: 1300 x 750 x 1260 mm (including base). Weight: 250kg.

Bomb Inhibitor

CODE FS1530
This unit can be quickly removed from its easily identifiable storage box, placed over a suspect package and left safely until the bomb Squad arrives, and whilst the surrounding area is evacuated it can reduce bomb damage by up to 90%. Supplied with a 10 metre draw strap to allow the inhibitor to be lifted from a safe distance.
Size: 660 x 500 x 150 mm. Weight: 25kg.

Under-Vehicle Search Trolley

CODE FS1531
A robust, illuminated, convex mirror providing a wide field of view fitted with a long handle, wheels and rubber feet. The bright fluorescent lens is 2 metres of cable allowing it to be unrolled for searching vehicle interiors. Powered by 10 x “D” cell batteries (not supplied) which fit into the handle.
Size: 900mm. Weight: 6.4kg.

Compact Search Mirror

CODE FS1532
Pocket-sized and fitted with its own light source, this unit allows basic interior and under vehicle searches to be carried out.
Size: 157 x 82 x 17mm (Closed). Weight: 285 Gms
870 x 82 x 17 mm (Open)

Level of Protection

The levels which we most frequently asked to armour are the following:

- Large Calibre Handgun: B4 (S&W, 44 Magnum and all lesser threats).
- High Velocity Rifle: B6 (7.62 NATO ball and all lesser threats).
- Armour Piercing B7 (7.62 x 51 AP and all lesser threats).

In addition, protection can be provided from the AK47 soft core and armour piercing ammunition.

Standard specifications are:

- High hardness ballistic steel armouring.
- Polycarbonate lined ballistic glass
- Explosive fuel tank
- Automatic under-bonnet fire extinguishers
- Run flat wheel bands

Options include:

- Electrically operated windows
- Heads up outside intercom
- Magnetic field detector
- Reinforced bumpers
- Interior air pressurisation system (gas attack)
- Siren
- P.A. System
- Remote starting system
- Other options at clients request

The vehicles most commonly supplied with armour protection are Mercedes Benz, Rolls Royce and Bentley, Jaguar, Range Rover, BMW, Toyota Landcruiser, Nissan Patrol and Mitsubishi Shogun. Many of these vehicles are in service with Royal, Governmental, Police, corporate and private customers in various regions of the world where there is an increased likelihood of attack.

We can supply a new fully armoured vehicle or armoring can be fitted to an existing vehicle.

In addition, our inventory now includes an armoured and “blast-proof” Land Rover Defender 110 for hire to the Press when the need arises.

“ This section is geared towards products more specific to our media customers who may be travelling to war zones or areas where there is an ‘elevated’ security risk. ”

Document Forgery Detection Kit
 CODE FS 1557
 A handy kit for the detection of many types of fraudulent document. Perfect for front line areas, such as airports, borders, on board ships or for mobile patrols. Particularly suited for passport and identity card control and immigration officers who need to check for forged travel documents.

Fiberglass Fingerprint Brush
 CODE FS 1563B
 Made from fine strands of fiberglass, this brush has the finest touch for aluminum fingerprint powder.

Aluminium Fingerprint Powder
 CODE FS 1563P
 A light powder ideal for most surfaces. Usually used if lifting marks and taking them back to a laboratory for photographing. Supplied in a 30 Gm plastic container.

“POLICE DO NOT CROSS” Tape
 CODE TAPEPOL
 Used for crowd control and protecting a crime scene area.
 Non-adhesive-75 mm x 250 m

“CRIME SCENE-DO NOT ENTER” Tape
 CODE TAPECR
 Essential for protecting a crime scene
 Black on yellow.
 Non-adhesive-75 mm x 250 m

Prison Pen
 CODE PRISONPEN
 You cannot give a prisoner a normal pen, which they could then use as a weapon. This pen is made from a soft rubbery material that bends under the slightest pressure making it virtually impossible to do serious damage with.

Gil First Aid Kit
 CODE FAK
 Current issue US military personal first aid kit. Contained in a green plastic case inside an olive drab nylon pouch. Filled with 2-mil-spec hostiles. NDR6546-01-094-8412.
 Size: 12 x 65 x 18.6mm (Apply for full contents list)

Personal First Aid Kit
 CODE NBCBBAG
 Housed in a medic-style bum bag worn around the waist. This is a basic first aid kit for dealing with minor cuts and scrapes (Apply for full contents list)

General First Aid Kit
 CODE NBCRS
 Housed in a normal rucksack for easy carrying, allowing the hands to remain free for writing or filming. Contains basic equipment for minor injuries together with some items to deal with more serious “Battlefield-Type” injuries (Apply for full contents list)

Trauma Pack
 CODE NBCTK
 Supplied in an orange coloured medic-style carrying back pack. This is a comprehensive package to enable trained medics to deal with both minor, and major battlefield type injuries. Housed in a clear plastic handbag inside the outer, which can be removed for ease of use in the field. (Apply for full contents list)

Fold-Up Evacuation Stretcher
 CODE NBCSTRETCH
 Designed specifically for use in battlefield/riot conditions. All housed in a dark blue backpack, with a reflective “PRESS” badge. This stretcher can be unfolded and in use in 6 seconds. Available with a transition bag/hanger.
 Size: (Folded) 52 x 17 x 14 Cm Size: (Extended) 207 x 55 x 15 Cm Weight: 5.2 kg Maximum Load: 600 kg (1310 lbs)

QuikClot-Sterile Traumatic Wound Treatment
 CODE NBCQC
 A remarkable medical breakthrough that allows casualties to be quickly stabilised in the critical minutes following injury. Now in use with the US military for in-field treatment QuikClot dramatically increases trauma survivability rates.

Handcuffs – Standard
 CODE FS 1551
 Manufactured by a company who have been making handcuffs for over 200 years. Ultra modern locking mechanism, fast positive and smooth swing-through action with 20 locking positions. Each unit is serial numbered and has heavy duty rivets and floating pick-resistant ratchet bars.
 Supplied with 2 keys.

Handcuffs – Hinged
 CODE FS 1550
 Manufactured by our supplier to their normal exacting standards. Instead of the cuffs being linked by chain, they are hinged to further restrict the prisoners hand movement.

Speedcuff
 CODE FS 1552
 A purpose designed package comprising an integral rigid steel handcuff and an ergonomic plastic grip. This unit has an exclusive backlocking feature for speedcuffing.

Ultimate Speedcuff
 CODE FS 1552ULT
 Exactly the same as the Speedcuff but hinged in the middle to allow the unit to fold over onto itself making it easier to keep in a pocket or on the belt.

Pouch for Speedcuff or Ultimate Speedcuff
 CODE FOR SPEEDCUFF FS 1553
 CODE FOR ULTIMATE FS 1552ULTPOUCH
 Hand-wearing and highly-polished leather pouches with belt loops designed for either the standard or the hinged Speedcuffs.

Peephole Reverser
 CODE REEPRV
 This unique item was developed to assist law enforcement officers assess potential threats or activity behind dwelling doors. It's quick and easy to use-just place the unit over the peephole and you can look into the room without alerting anyone inside. Weatherproof composite casing and high-quality custom-designed precision ground glass lenses, carrying pouch included.
 Length: 68 mm Weight: 65 Gms

ASP Tactical Baton
 CODE FS 1548
 Provides both the plain-clothed and uniformed policeman with a compact, inconspicuous yet devastatingly effective impact instrument. These units offer concealability, convenience and low profile with the reach, controlability and tactical superiority of a full size baton. Used by many UK and most US law enforcement agencies. Precision machined steel baton with two telescopic shafts which collapse into a black matte foam handle. Locks securely into place with just a flick of the wrist.
 Available for law enforcement agencies only.

Completed Size	Extended Size	Weight
152.4 Cm	406.4 Cm	375.8 Gms
177.8 Cm	533.4 Cm	467.8 Gms
241.3 Cm	660.4 Cm	567.0 Gms
285.8 Cm	787.4 Cm	666.4 Gms

Side Handle Baton With Foam Handle
 CODE FS 1547
 The most versatile and effective baton ever engineered. Can be used for one-handed cutting, armlocks, vehicle and chair extraction and fence climbing. Ideal for crowd control and domestic disturbances. Should be used only after proper training.
 Available for law enforcement agencies only.
 Length: 60Cms

Omni-Directional Weapons Detector with Vibrate
 CODE FS 1526AV
 Best hand-held unit on the market. Omni-directional and detects ferrous and non-ferrous metals. Long probe allows for rapid search by covering large area whilst allowing the user to operate further away from the subject. Vibration warns the user whilst not alerting the person being searched. 100 hours of use from 1 x P33 P9 battery (supplied).
 Length of probe: 470mm Diameter of probe: 25mm Weight: 34 Gms (with battery)

Hand Held Weapons Detector with Vibrate and Holster
 CODE FS 1525A
 A budget-priced unit designed for use by Police and Security Personnel. Lightweight and comfortable handle make this unit easy to use even for long periods of time. Perfect for airports, schools, prisons and sports events. Dual indicators allow the user to choose audible alert or vibration. Powered by 1 x P33 P9 battery (supplied) and supplied complete with leather belt holster.
 Size: 410 x 40mm Weight: 420 Gms (with battery and holster)

Stop Stick Tyre Deflation Device
 CODE FS 1672BS
 This tyre deflation device offers the fastest deployment of any unit available. The plastic housing provides officer safety during deployment and removal from the road. The unit comes with a 24 metre cord which allows an officer to stand a safe distance from the road. Designed to deflate the tyre without causing a blowout.
 Available to authorized users only.

Evacuation Hood
 CODE EVAC-HOOD
 Pocket-sized, once only use, to give you those extra minutes to escape the harmful effects of smoke and micro-organisms such as anthrax, organic gasses and bacteria. Everyone should carry one of these with them at all times.

Protective Insert for Baseball Cap
 CODE CAPINS
 Protection against nasty bangs on the head. Will fit discreetly inside any baseball cap.

Fox 40 Emergency Whistle
 CODE FS 1542
 The most intense, penetrating and reliable whistle available, ideal for use as an emergency call for help.

Personal Strobe Alarm
 CODE SPBR88
 137 Decibel alarm and a strobe light. Battery operated and ideal for attracting attention in an emergency. Battery supplied. This unit will keep on going for up to 20 minutes.

Personal Shrii Alarm
 CODE FS 1540
 A simple aerosol operated 130dB alarm. Very loud—very painful to the ear, and bound to attract attention. Easy to fit into a pocket or handbag.

Money Belt
 CODE FS 1543
 Can hide up to 2000 in 100 bills. This is an essential piece of travel equipment.

Triple Action Alarm
 CODE FS 1539SPHAYX3
 Emits a 100 DB alarm, a repulsive odour and will spray an attacker with an ultra-violet dye to help identification by the police at a later date.

Hand Held Dog Dazer
 CODE SPDODA
 This unit emits a frequency as high that it can be heard by dogs but not by humans. It will usually stop a dog at 5 metres.

See Behind Sunglasses
 PLASTIC FRAME CODE FS 1681
 METAL FRAME CODE FS 1682
 See behind you without turning your head. Perfect for surveillance or to ensure you are not being followed. Subtle but effective and much better than having to turn your head.

Mobile Proximity Alarm
 CODE FS 957
 A feather-light system to protect you from theft, or forgetfulness and, much more importantly, alert you if your children wander off. As soon as the transmitter is separated from the receiver by over a pre-set distance you will be alerted.

Security Case with Tether
 CODE FS 1545
 Manufactured to the highest governmental security level. Fitted with a tamper-proof security lock, a pair of cast steel combination locks and a security tether. If you carry high-value items or sensitive information, this case is an absolutely essential added security item.

Transferable Smoke/Dye Alarm System for Cases
 CODE DRPMW
 Simply place the nylon mesh bag containing this unit into a case or bag. The alarm, smoke or dye unit can be activated or de-activated remotely from up to 150 metres.

NBC Durram Escape Mask
 CODE FS 1538(NBC)
 A vacuum-packed, pocket-sized escape mask that will provide instant protection against inhalation of air-carried biological and chemical organisms.

Childs Gas Hood
 CODE FS 1508
 Designed for children of 3-8 years old. This kit is designed to protect the head and respiratory system. Comfortable to wear and allowing a wide field of vision. A built-in airflow unit creates positive pressure preventing contaminated air from entering the hood. Drinking tube provided powered by 4 x 123A(3v) Lithium batteries. Supplied in an easy-to-carry case with handle.

Baby's Gas Suit
 CODE FS 1509
 Designed for infants 0-3 years old. This system protects the head and respiratory system including the neck and shoulders. Comfortable for the baby to wear whilst allowing easy handling and care of the infant. A unique system enables the baby to feel whilst remaining inside the suit. Blower unit pumps air through a filter. The purified air creates pressure which prevents contaminated air from entering. Powered by 4 x 123A(3v) Lithium batteries. Supplied in an easy-to-carry case with shoulder strap.

Gas Mask Filters
 CODE FS 1507
 Supplied with standard NATO threads, we always have a selection of Type 80 filters available from stock.

Decontamination Powder
 CODE FS 1505
 A decontamination and neutralising powder for NBC use. Contains 100 Grams in a puffer bottle. NATO No. 4230-990961-4239

Decontamination Pads
 CODE FS 1500P
 A packet containing 4 pads for use on both body and equipment. Sometimes known as Blot-Bang-Bub pads these should always be carried when there is a risk of contamination.

Chemical Agent Detector Paper (single colour)
 CODE FS 1499(1)
 Simply attach these self-adhesive stickers to warn you when a chemical agent is present.

Medical Bacteria Suit
 CODE FS 1496
 Nylon backed, rip-proof PVC splash suit with double gusseted cuffs and legs. Compatible with a wide range of respirators and resistant to most acids and contaminants which can easily be washed off. Essential when entering a contaminated area.

Latex Gloves
 CODE FS 1501
 Supplied in boxes of 100 and ideal for handling contaminated items, scene of crime evidence or for medical work.

Tyvek Pro-Tech 'C' Suit
 CODE FS 1498
 A polyethylene fabric. Inert to most chemicals and providing a good barrier to dust, fibres and liquids. The suit includes a hooded coverall, elasticated cuffs and ankles, and shoe covers. Supplied in yellow or white. This is a disposable, short-life item.

2505 Day/Night 2nd Generation Rifle Scope
 CODE FS 11618
 This is an exceptional rifle scope which can be used either in daylight or at night without needing to switch scopes and re-zero the unit.
 Supplied complete in a fully waterproof pelican case together with a camera adaptor that allows the scope to be fitted to either an SLR or a video camera. Day magnification/Standard night magnification 4.
 Supplied with a Weaver mount and powered by 1*CR123A(3v)lithium battery(supplied).
 1 year manufacturers warranty.
 Size: 305 x 74 x 74 mm Weight: 970 Gms-Day 1090 Gms-Night

40m 2nd Generation Rifle Scope
 CODE FS 11163
 A truly professional night scope allowing night-time viewing at ranges of up to 700 metres via the 3.2 x magnification lens. Supplied with a camera adaptor and a built-in infra-red illuminator.
 Standard windage and elevation are included in this very advanced unit which is powered by 2 x AA(1.5v) batteries (supplied).
 A canvas carrying bag is supplied with the unit.
 Size: 275 x 90 x 70 mm Weight: 1.77kg

NVRSF 1st Generation Rifle Scope
 CODE FS 11184
 This Starlight night vision rifle scope is built to a professional standard to provide a high quality viewing in near-total darkness. A sophisticated electro-optical assembly is contained on extremely durable Titanium housing. Can operate for up to 50 hours from 2 x AA(1.5v)batteries at extreme temperatures. Complete with windage and elevation controls and reticle brightness adjustment.
 The package includes an infra-red illuminator, a reducer to enable the unit to be fitted to a digital camera, a remote controller to power up the unit and a carrying case.
 Front end focusing allows the sight to be focused at distances as low as 2 metres which is perfect for pest control.
 Size: 255 x 85 x 85 mm Weight: 1.8 Kg

FFII Military Strobe Unit
 CODE FS 11184
 The latest US Military Strobe unit producing 250,000 peak lumens per flash light output and flashing 55 times per minute. Waterproof to 15 metres the unit includes a sliding flash guard to limit side flash and an infra-red filter for covert signaling and marking and a built-in blue filter to differentiate the strobe flash from ground fire. This unit meets all MIL-Spec, USCG and SOLAS certifications. Operates from 2 x AA (1.5v)batteries(supplied).
 Size: 105 x 28 x 50mm Weight: 140 Gms

Infra-Red Strobe Unit
 CODE FS 12599
 This is a rechargeable pulsing strobe unit which is only visible when viewed via a night vision unit.
 The ISU clips directly on to a PFP3 (9v)battery(included). The powerful infra-red flashes can be seen through clothing and deep foliage.
 This unit is used by the military for night time operations to identify friendly forces but it is also useful for night rescue operations or whilst out hunting at night with friends who are also using night vision equipment.
 Size: 60 x 17 x 28 mm(including battery) Weight: 50 Gms(including battery)

Mini Radiation Dosimeter
 CODE FS 1494
 One of the most sensitive, accurate and reliable meters for measuring x-ray and gamma radiation to which the wearer is exposed. Dual display allows the user to view combinations of readings including dose and rate, dose and run time and many others. The meter allows a number of warnings to be set. Software is available to make the unit PC compatible. Powered by 1" AA" battery(supplied).
 Size: 110 x 60 x 18mm Weight: 110 Gms

Radiation Detector Wrist Watch
 CODE FS 1404A
 Featuring a Geiger-Muller tube as a sensor, which detects Gamma radiation and converts it into Dose Equivalent Rate(DER)and Dose Equivalent(DE). These figures allow the user to keep track of the radiation level and to estimate the potential accumulated absorption of gamma radiation. This watch offers separate audible alarms on DER and DE and these alarm limits can be set by the user. Also offers time/alarm data function in both analogue and digital format.

Microwave Monitor
 CODE FS 1495
 A small hand held unit designed for checking exposure levels in the vicinity of mobile/cellular phone base station masts, dishes, relays, microwave ovens and other microwave frequency sources. Powered by 11 PFP3(9v)battery.
 Size: 56 x28 x 93 mm Weight: 105 Gms

Clear NBC Suit
 CODE FS 14871
 Designed by and for the Israeli Defence Force to provide protection against all known chemical warfare agents. A disposable 2 piece suit consisting of a blouse top with an elasticated contoured hood to fit and gait mask and a quick-fastener for easy closing together with elasticated trousers. All supplied in a sealed plastic pouch. The suit is made of a 3 layer laminate of polyethylene/polyamide/polyethylene manufactured using continuous heat-seal welding. Also available in children's sizes.
 Supplied complete with NBC over boots, cotton inner gloves and NBC cover gloves made of polythene/polyamide laminate. Gas mask required

S10 Respirator
 CODE FS 1504
 Designed and developed for the British MOD. This gas mask has a high performance, integrally moulded, reflex seal and offers excellent vision, communications and comfort together with an internal drinking facility.
 • Drinking bottle available CODE FS 1504DB

Israeli Military Gas Mask
 CODE FS 1503
 Standard issue to Israeli Defence Force personnel. Comfortable to wear with large triangular eyepieces to give excellent vision, a voice meter to allow good verbal communications ability, an upgraded exhalation valve for easy breathing and a built-in drinking tube assembly.
 • Drinking bottle available CODE FS 1503DB

1st Generation Hand Held Night Vision
 CODE FS 122746
 A Hand Held, entry level, night vision monocular offering 3 x magnification. Fitted with infra-red to allow viewing in zero light conditions.
 Constructed using an electro-optical intensifying tube housed in a water-resistant casing which is rugged enough to withstand field conditions and offers 3 magnification.
 This unit is supplied with a nylon holder and 1*CR123A(3v) lithium battery which gives up to 20 hours of use at temperatures ranging from -30 to +40 degrees centigrade.
 Size: 172 x 80 x 60 mm Weight: 440 Gms

1st Generation Hand Held Night Vision
 CODE NV718EM
 A professional specification 1st generation unit designed to provide enhanced viewing in all low light conditions including, due to the built-in infra-red, total darkness.
 Constructed using an electro-optical intensifying tube housed in a water-resistant casing which is rugged enough to withstand field conditions and offers 3 magnification.
 This unit is supplied with a nylon holder and 1*CR123A(3v) lithium battery which gives up to 20 hours of use at temperatures ranging from -30 to +40 degrees centigrade.
 Size: 155 x 64 x 61 mm Weight: 410 Gms

Marine 2 1st Generation Hand Held Night Vision
 CODE FS 2
 Designed specifically for marine use, this is a budget priced unit that is fully waterproof floats and offers 3 x magnification. Rubber-coated housing and soft-touch controls make handling safe and secure. Built-in infra-red for zero-light use and automatic brightness control. Powered by 1x CR2 Battery(supplied). This unit will operate for up to 45 hours(without 1-Rijon 1 battery).
 Size: 178 x 56 x 76 mm Weight: 397 Gms

Marine 5 1st Generation Hand Held Night Vision
 CODE FS 5
 A precision engineered, high quality, night vision unit offering 5 x magnification and superb camera quality optics for long distance night-time viewing.
 Designed specifically for marine use, this unit floats and is hermetically sealed to prevent water penetration making it ideal for outdoor activities such as boating, search and rescue, camping and security.
 The built-in infra-red illuminator ensures that viewing is possible even in the darkest conditions. Field of view at 1000 metres is 200 metres.
 Powered by 1 x CR123A(3v)Lithium battery(supplied).
 Nylon carrying case supplied.
 Size: 200 x 81 x 59 mm Weight: 625 Gms

1st Generation Pocket Sized Night Vision
 WITH HEADMOUNT CODE FS 1295V1
 WITHOUT HEADMOUNT CODE FS 1295V2
 If you need a small, versatile night vision unit then this is the one we would recommend. The Vp1 monocular system is supplied to be used as a headmounted unit leaving two hands free for driving, flying or using tools etc. It is supplied with built-in infra-red for use in low or zero light conditions and will give 8 to 10 hours continuous use from 1 x CR123A(3v)lithium battery(supplied).
 The unit as supplied has no magnification, however accessories are available to increase magnification to 4 x (90 mm lens) or 8 x (60 mm lens and doubler). A 35 mm video camera adaptor is also available.
 Supplied with a canvas carrying case and a 5 year warranty against manufacturers defects.
 Size: 140 x 84 x 43 mm Weight: 265 Gms

Noga 1st Generation Night Vision Goggles
 CODE FS 1296
 This is a specially priced headmounted night vision unit incorporating separate tubes for each eye and an in-built infra-red light for viewing in low or zero light conditions. Zero magnification makes this unit ideal for night-time driving, flying, sailing or hunting. Auto shut-down activates if available light reaches 1 lux.
 Powered by 2 x AA (1.5v) batteries which will give up to 40 hours of use. Supplied with a canvas shoulder bag.
 Size: 140 x 140 x 65 mm (without headmount) Weight: 1.1 Kg

Nightstorm 2nd Generation Marine Night Vision
 CODE FS 1287NV
 A rugged yet lightweight 2nd generation night vision unit that is not only waterproof but floats making it absolutely perfect for boating.
 This unit offers 3.5 x magnification, has built-in infra-red and an ergonomic design that makes it comfortable to use.
 Supplied in a canvas bag with shoulder strap and 1*CR123A(3v)lithium battery which will give up to 20 hours of use. This unit is covered by a 2 year manufacturer's warranty.
 Size: 175 x 60 x 90 mm Weight: 450 Gms

1302 Night Vision Goggles - Generation 2+
 CODE FS 1302
 A powerful 2nd generation binocular - this means that the unit has 2 eyepieces, but only one night vision tube and lens. It works superbly.
 The unit comes fitted with a 28 mm F1 Lens as standard with no magnification. We can offer 2 other lenses as optional extras. The 7015 which is a 100 mm F1.5 lens giving 3.9 x magnification, or the 7015 which is a 165 mm F2.0 lens offering 8.3 x magnification.
 The unit is powered by 2 x AA(1.5v)batteries and comes with a nice canvas shoulder bag.
 As you would expect with a unit of this quality infra-red light enhancement is included.
 Size: 173 x 148 x 73 mm Weight: 700 Gms

Warrior Multi-Purpose Night Vision System - Generation 2
 CODE FS 1296
 This system is designed to be the ultimate night vision package.
 This versatile unit can be used as a compact hand held spotting scope, a hands-free goggle system, a weapon sight or for attaching to a still or video camera.
 Supplied complete in a waterproof pelican case.
 This system includes: -
 Warrior 2nd Generation Night Scope
 2 Lithium CR123A(3v)batteries
 Long range infra-red illuminator
 Headmount
 15 mm Eyepiece
 30 mm Eyepiece
 30 mm Lens (Magnification)
 Doubler(2 x Magnification)
 Camera Adaptor
 30 mm Lens
 90 mm Lens
 By cleverly combining the various lenses, eyepieces and doubler you can achieve 2.3, 4.6 or 12 x magnification.
 Weight: 3.5 Kg(whole package in pelican case)

Digital Credit Card Safe

CODE FS1544D
The most advanced and user friendly safe available. Operated by credit card or any other magnetic card. To lock the safe the user simply closes the door and slides his/her personal credit card through the slot and the word "CLOSED" appears on the digital display. To open simply slide the card through the slot again. Also operates via a 3-6 number personal code chosen by the user, or a key provided. Runs on 4xAAA (1.5v) batteries. Supplied with 20mm fixing bolts.
Size: 275 x 420 x 315mm Weight: 15kg

Door Sight - Through Door Viewer

CODE FS1585JN
A revolutionary new security device that can easily be fitted in wood, fibreglass or metal doors. This unit is designed to replace the standard peephole and give you the peace of mind of clearly seeing who is at the door. Unlike a conventional peephole you can stand up to 2 metres away from the door and still clearly see out. Utilising prism optics the door viewer projects the outside image on to the viewing screen providing a 132 degree viewing area whilst maintaining your privacy and protection. You can see out but anyone outside cannot see in. Durable, maintenance-free, ideal for households with children and anyone in a wheelchair.
Size: 70 x 55mm Weight: 90 Gms

PIR Motion Sensor with Telephone Connection

CODE FS 1555JN
Possibly the most useful home security device launched for years. A passive infra-red alarm which will dial a pre-programmed telephone number as soon as an intruder enters the premises. It dials out automatically as soon as it detects movement within 8 metres. You can record your own 8 second message and up to 3 telephone numbers can be programmed to be dialled simultaneously. The unit can be switched to "siren off" for a silent telephone alert only. No wiring - easy installation.
Runs 4xAAA (1.5v) batteries.
Size: 162 x 70 X 48 mm Weight: 250 Gms

Outdoor PIR Messaging Unit

CODE FS 15350D
This unit is capable of delivering two kinds of audible messages to a potential intruder. Messages can be recorded directly into the unit's built-in microphone or an external sound source can be connected to the detector. The system can also discriminate between large and small animals to avoid false alarms and is fully waterproof. The area protected can be altered by a simple adjustment and the unit will automatically change from a day-time to a night-time message if required. When set to sequential message mode the system will automatically change the message on the third occasion that it has been activated within a 30 second period. For example: "MOVE AWAY FROM THIS BUILDING" "MOVE AWAY FROM THE BUILDING" "SECURITY STAFF ARE ON THEIR WAY". The unit has 12 metre 90 degree coverage. Power input 9.5-18 VDC.
Size: 175 x 82 X 78 mm Weight: 550 Gms

Diversion Sares

A brilliant way of hiding small valuable items in various places around your home. Hiding things in plain view is often the best way to throw thieves off the track. So innocuous looking that no one would give them a second glance.

CSS Keywatcher(64K)

CODE FS 1270
This is a small device less than 40mm long that plugs into the back of your computer and takes its power from the computer. This unit will store up to 64000 characters (approximately 42 pages of text, which can be recalled by simply typing in a changeable password. Fully portable, the device can be moved to any computer where the stored information can be read.

CSS Keyboard(128K)

CODE FS 1271
A fully working keyboard with the in-built facility of storing up to 64 pages of text. Changeable password. Stored information is released even if the unit is unplugged or there is a loss of power.

USB Key Logger

CODE FS 12706S
An advanced USB hardware key logger with a huge 2MB internal flash disc. All text data typed on the USB keyboard will be captured and stored for retrieval later. Text data can be retrieved on any other computer with a USB port and keyboard. Will store up to 2000 pages.

Scanlock ECM

CODE FS 1272
A professional system. Best suited for use by government departments and large corporations. This unit is unique in providing an easy to use system for the non-technical user but has features and specifications to satisfy the most demanding security professional. 8 hours use from the internal re-chargeable battery. 90-120 v AC or 185-260v AC ideal for checking larger buildings.
Size: 310 x 240 x 80 mm Weight: 5.3 Kg

Broom ECM Non-Linear Junction Detector

CODE FS 1273
Portable and simple to use this unit will detect active, dormant or non-operational bugs and other concealed electrical devices. Currently in use with government and commercial security professionals in over 70 countries. Perfect for locating devices secretly concealed within furniture or the fabric of the building. 7 hours use from internal re-chargeable batteries. 2 years manufacturer's warranty.
Size: 310 x 290 x 80 mm Weight: 7 Kg (including antenna)

Searchmaster Transmitter Detection Package

CODE FS 1285M
A fully integrated counter-surveillance package designed to perform a thorough sweep of both premises and vehicles to a professional standard. Very high sensitivity across a wide frequency range this system will detect even the very weakest transmissions. Covers 1 MHz to 6.024 (8000 MHz) and features a digital "peak pulse" detector which enables it to detect signals that only transmit momentarily and to illuminate an LED to notify you that a "burst" type transmission has been detected. This unit displays the frequency of the signal detected up to 250MHz which enables the user to quickly verify whether the detected signal is from a genuine innocent radio device or something more sinister. Supplied with a telephone interface and many other accessories including internal Li-Ion batteries and charger.
Size: 170 x 165 x 52 mm Weight: 1 Kg

MDS 4001 Multi-Direction System

CODE FS 1274
A system designed to locate, quickly and silently, all major categories of electronic surveillance devices whilst combining reliability with simplicity of operation. The system includes 5 interfaces which connect to the control unit in order to detect RF camera, mobile camera, telephone, infra-red and laser surveillance. Powered by internal re-chargeable batteries or 110,220 or 240 v AC.
Size: 250 x 240 x 65 mm Weight: 9 Kg

CSS 320 Single Channel Hand Held Transceiver

CODE FS 1120GP320
CSS 340 16 Channel Hand Held Transceiver
 CODE FS 1120
 Available in VHF or UHF, these are 5 Watt hand portable transceivers acknowledged to be the hardest wearing and most sensitive units on the market. Computer programmable and complete with antenna, Ni-Mh batteries and belt clip.
 Full range of accessories available including charger, soft or hard case, ear/bomb microphones.
 Available in single channel or 16 channels as shown above.
 Frequency coverage: VHF: 136-174 MHz UHF: 403-470 MHz Channel Spacing: 12.5/20/25 KHz
 Size: 137 x 57 x 37.5 mm Weight: 420 Gms

CSS 420/480 Hand Held Encrypted Transceiver

CODE FS 420/480
 The latest and we think the best addition to our range of hand held radios. Compact, lightweight, powerful and durable delivering a full 5 watts. This unit includes voice scrambling at the touch of a button to ensure privacy between you and other users on your network. Lithium-ion batteries provide a full 11-hour duty cycle. Vox (Voice-Operated Transmit) allows hands-free use. Half the size of equivalent units on the market. Available in VHF (CSS420) or UHF (CSS480).
 Full range of accessories available including: charger, cover-it-style earpiece, speaker microphone, and soft case.
 Frequency Range: VHF (CSS420) 136-174 MHz UHF (CSS480) 403-470 MHz Channel Spacing: 12.5/20/25 KHz
 Channel Capacity: Up to 256 Channels Size: 102*91*31 mm Weight: 274 Gms

CSS 456 Lightweight Hand Held Transceiver

CODE FS 1121
 A very small and lightweight unit that operates on a license-free frequency. Includes VOX for hands-free operation, 9 memories, backlit display, baby sitter, intercom and interference eliminator.
 Operates from 3 x AA (1.5v) batteries.
 Range of up to 4 Kilometres.
 8 Channels.
 Size: 53 x 36 x 30 mm Weight: 110 Gms (without batteries)

CSS A-6 VHF Air Band Transceiver

CODE FS 6
 Used by both pilots and ground crew, this is a powerful and highly portable unit offering 200 memory channels with the facility to display 5 character names, a scan facility, VOR function and quick-access to the emergency frequency.
 Can be operated by 6 AA batteries or 7.2v V1100Mh Ni-CAD battery pack(s) (supplied)
 Size: 54 x 129 x 35 mm Weight: 180 Gms

Wrist-Watch Walkie Talkies

CODE FS 2285
 A really smart wristwatch walkie-talkie with a compact swivelling antenna. Also an Am/Fm wristwatch with backlit LCD display, 8 channels with internal Vox and auto sequence giving a range of up to 2.5 KMS. Supplied with 3.7v Lithium-Ion battery and charger

FT2500 VHF/UHF Mobile Transceiver

CODE FS 1127
 The first amateur mobile transceiver designed to meet rugged US Military specification. Selectable power output of 5.25 or 50 Watts. Large LCD display, 31 tuneable memories. Channel steps selectable from 5 to 50 KHz. Frequency range 140-174 MHz. Unit comes complete with vehicle mounting bracket and can be configured for use as a base station. Also available in UHF.

GM350 VHF/UHF Mobile Transceiver

CODE FS 1128
 Available with 4 or 128 computer programmable channels. This 25W unit is designed for mobile use but can also be configured for use as a base station. Available in VHF or UHF.

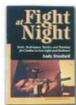

TS50S Transceiver H.F. (High Frequency)

CODE FS 1106
 One of the smallest high frequency transceivers on the market, this unit is equally at home being used as a mobile or a base station. 100 memory channels. Operates from 13.8 DC (+/-15%). Scanning and data communication, CW and SSB. This sophisticated unit will give communications over enormous distances.
 Size: 175 x 80 x 233mm Weight: 210g

Providing Executive Protection Volumes 1 & 2

CODE FS 82/FS 83
 The most comprehensive coverage of executive protection ever written: 40 chapters, each written by a leading authority in the field. Chapters include threat assessment, team dynamics, advance work, driving techniques, emergency medical care, terrorist tactics, defensive combat, carjacking, media encounters, electronic surveillance, and much more. Hardcover 2 volume set.
 Volume I (1199, 280p) Volume II (1994, 355p)

Fight at Night

CODE SB/FAN
 The tools, tactics, techniques and training for combat in low light and darkness. Written to allow the private citizen, as well as the armed professional, to turn darkness into an advantage.
 Author: Andy Stanford (1999, 207p)

First Response Medicine for Terrorist Attacks (What To Do in The First 10 Minutes)

CODE RESPONSE
 Learn the skills to act as a medical "first responder" so that you can take appropriate action until help arrives. Although specifically written for use after a terrorist attack, this book is invaluable for handling any medical emergency.
 Author: Barry Mishel MD (87p)

Methods of Disguise (2nd Edition)

CODE METH
 A book on how to disguise yourself—everything from quick-change methods to long-term permanent disguises. Topics include philosophy of disguise, natural disguises, voice disguising, makeup, plastic surgery, maintenance and pocket disguise kits. 133 detailed drawings.
 Author: John Sampey (1953, 324p)

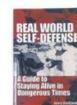

Pick Guns (Lock Picking for Spies, Cops and Locksmiths)

CODE FS 2385MAM
 An insight into one of the few remaining jealously guarded professional skills. This book gives an overview of the mechanical principles of lock pick guns—how they work and how to use them. Photos include original patent drawings and improving pick guns from coat hangers and clothes pins.
 RESTRICTED SALE ITEM—ONLY AVAILABLE TO APPROVED ORGANISATIONS.
 Author: John Money 1955, 120p

Recognising and Treating Exposure to Anthrax, Smallpox, Nerve Gas, Radiation, and Other Likely Agents of Terrorist Attack

CODE EXPO
 Combat fear with knowledge. This book includes descriptions of 29 likely agents of nuclear, biological or chemical attack. The symptoms they produce, treatment options and ways to prevent exposure.
 Author: Matt Bolinger MD (100p)

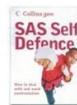

Real World Self-Defence (A Guide to Staying Alive in Dangerous Times)

CODE RWSD
 Written by a former undercover police officer this book offers no-nonsense advice for civilians on how to deal with everything from an unwarranted physical attack through to the often ironic, legal aftermath. Entertaining, hard-hitting and tactically on the mark.
 Author: Jerry Vanook (204p)

Riot - Prevention and Control

CODE RPC
 Written by an Ex-Police Captain who handled hundreds of riots, protests and celebrations during three decades with the San Francisco Police. This book is designed to show Police Officers and security personnel how to use special tactics, equipment and training to ensure that public gatherings do not turn into riots and how to instantly switch to a different set of tactics should it become necessary.

SAS Self Defence

CODE FS 9805
 Written by noted Ex-SAS operator Barry Davis, this book covers everything from environmental awareness through to mindset, getting fit and staying fit. The book moves on to basic self-defence, with an emphasis on defence using common objects such as coins or pens. Also covers common attacks, protecting your property, defensive moves, vehicle safety, travel and much more. Pocket-sized edition.
 Author: Barry Davies (1992, 254p)

SAS Survival Guide

CODE FS 9806
 This volume contains the complete SAS survival course, to prepare the reader for survival outdoors, on land or sea in any weather, anywhere in the world. Contains material on improvising shelters and weapons, navigation, first aid, food gathering and a lot more. Pocket-sized edition.
 Author: John 'Lofty' Wiseman (1996, 384p)

Also available in wireless format by adding:

2.4 GHz A/V Transmitter/Receiver Set

CODE FS 500TXRX
Rechargeable battery life 2 hours – range up to 300 metres.
Violation alert for low battery power. Output 500 MW.
Size: 110 x 70 x 20 mm
Size: 70 x 60 x 15 mm

Rucksack Camera

CODE FS 1216
Perfect for covert filming. This item works well for either men or women, young or old. Fitted out internally to accept a handycam or digital recorder (not included). The colour camera and microphone are cleverly fitted into the shoulder strap.

Modular Recording System with 400 Hour Storage Capability

CODE FS 1219
A feature-rich system designed specifically for mystery shopping/customer service operatives, offering the ability to review footage immediately on a high resolution screen. The recorder/player offers 400 hours of storage. A rechargeable battery pack, date and time stamping on all recordings and all housed in a robust casing measuring just 122 x 75 x 32 mm.
(Smaller camera illustrated)

Self-Fit Camera

CODE FS 1217
A system that allows the user to fit the camera to any piece of material that may be suitable, clothing, furniture or even a painting or photograph. Supplied complete with a tool for making, and positioning, a viewing hole for the lens, 3 ring plates for holding the camera in place and the camera itself. Supports colour picture and sound.

Advanced Weapons Training for Hostage and Rescue Teams

CODE ADV
Written for all Police, Military and Government personnel tasked with either teaching special weapons, or engaged in anti-terrorist operations. Covers weapons employed in hostage rescue, selection, modification, initial training, advanced drills, instructional skills and training aids. Contains 280 photos and illustrations.
Author: Mark Lonsdale (1988, 270p)

Big Book of Secret Hiding Places

CODE SB8K3
Covers the art and science of purposeful concealment. Full of illustrations showing the huge number of areas, both in the home and elsewhere to hide things.
Author: Jack Luger (1971, 124p)

CQB (A Guide to Unarmed Combat and Close Quarter Shooting)

CODE FS 67
A guide to advanced armed and unarmed combat techniques developed specifically for Police and Military Special Operations Teams operating in high risk environments. Techniques illustrated are easy to grasp, quick to learn and effective to employ.
Author: STTU (Specialized Tactical Training Unit) (1999, 223p)

Close Quarter Combat - A Soldiers Guide to Hand-To-Hand Fighting

CODE CB50L
This book is designed to teach soldiers a system that will make them a force to be reckoned with. Fighting often gets "up close and personal" - this book will help ensure that the reader returns victorious.
Author: Professor Leonard Hollister (1959)

Concerned Citizens Guide to Surviving Nuclear, Biological, and Chemical Terrorist Attack

CODE CONCERN
This book eliminates the need for extensive research and condenses volumes of material into a no-nonsense text that will provide the reader, and loved ones, with the knowledge to help them to survive exposure to nuclear, biological, or chemical agents.
Author: Fred H Lankford (1959)

Ballistic Helmet

CODE FS 1519
Specifically designed for military and law enforcement personnel. This helmet offers light weight and high ballistic protection. We have supplied this helmet to journalists in every major area of conflict over the past 10 years. The helmet offers protection to NIJ Level IIIA as well as protection from a V50 type projectile at 650m/ps. Dark blue. Available in sizes S, M, L.
Weight: 1.02 kg (6lb/5oz)

Riot Shield for Helmet

CODE FS 1520
This US military-issue face shield allows the user to quickly convert a combat helmet into a riot helmet, affording facial protection from hazards ranging from liquid splash to ultrasound. Manufactured from 4mm Lexan Polycarbonate which meets military spec: MIL-V-43511C. Unique pivot and lock mechanism.
Weight: 525 Gms

Bullet-Proof Briefcase Level IIIA

CODE FS 1523
A smart brown leather briefcase that can be used to carry documents as normal. The case can also be flipped open and used as a ballistic shield. Protects against all handguns up to a .44 Magnum.
Weight: 4.8 Kg

Soft Bullet-Proof Briefcase - Full Length Level IIIA

CODE FS 1524SE
A soft canvas case that can be used for carrying documents and a couple of shirts. In an emergency situation the case can be opened to reveal a drop-down shield big enough to give full length frontal body protection against all handguns up to a .44 Magnum.
Weight: 6.9 Kg

Kevlar Inserts for Briefcase

CODE FS 1524
Simply slip the insert into your briefcase to convert it to a Level IIIA ballistic shield which will stop any handgun up to a .44 Magnum.
Size: -270 x 374 x 7 mm
Weight: 418 Gms

Anti-Stab Gloves

CODE FS 1522
A knitted Dyneema steel slash-resistant glove. Essential if you anticipate coming up against someone with a knife.

Dust/Shatterproof Goggles

CODE FS 1521
US military issue sun/wind/dust goggles. Design allows them to be worn over glasses and with a ballistic helmet. Shatterproof lenses which are essential for desert operations.

Hard-Wired

“Extremely high resolution 450TVL CCD colour cameras complete with high quality sound recording, all covertly packaged and supplied with a miniature, remote-controlled digital video recorder (smaller than a packet of cigarettes), incorporating a 2.4 TFT LCD screen. Supplied with re-chargeable Lithium-Ion batteries, earphones, all cables, and a canvas cover. Up to 280 minutes recording time, depending on SD card (no SD card supplied). Recordings are all date and time stamped - battery life 60 minutes.”

This is the world's smallest DVR

CODE FS 500

Lightweight Level II Bullet/Stab Proof Vest

CODE FS 1511
Without doubt the lightest and most flexible vest we have ever stocked. Ideally suited for operatives to wear for long periods. It reduces fatigue and is comfortable to wear whilst seated. Protects against a .357 Magnum, also offers protection against many knives and screwdrivers.
Weight: 1.3kg

Covert Level IIIA Bullet-Proof Vest

CODE FS 1509
Protection against all handguns up to and including a .44 Magnum bullet. The PCV (Police Covert Vest) has been developed for issue to covert operations officers. Designed to be worn under a shirt and jacket.
Weight: 2.5kg

Covert Anti-Stab Vest

CODE FS 1512
Developed for Police and Military use using a new and advanced ballistic and knife resistant composite textile. Certified by the Home Office to PSD ratings HGA and KFC. Eighteen layers of aramid enclosed in a heat coloured waterproof cover.
Weight: 2.2kg (Medium)

Level IIIA Bullet-Proof 'Press' Jacket with Neck and Groin Protection

CODE FS 1513
A sleeveless outer garment designed to provide superior all-round protection. Supplied to news reporters in all major "hot spots" this jacket combines reasonable weight with the highest level of anti-ballistic protection. Apart from neck and groin protection the jacket has front and rear pockets into which either ceramic or lightweight Famosstone plates can be fitted to increase protection even further and pockets for storing film and spare batteries. Supplied in dark blue with front and back removable reflective "PRESS" badges, and a black nylon carrying case.
Weight: 4.1kg (Medium)

Denim Jacket - Bullet-Proof Level IIIA

CODE FS 1516DENIM
A regular Levi Strauss type denim jacket with a Level IIIA bullet-proof lining cleverly sewn into the inside. Perfect for casual wear this jacket offers all round protection against any bullet up to, and including, a .44 Magnum.
Weight: 3.8kg

Flying Jacket - Bullet/Stab Proof Level IIIA

CODE FS 1518
A stylish silk-biason-type jacket with a zip-up front. This fashionable jacket offers Level IIIA ballistic protection and will protect the wearer from any handgun up to a .44 Magnum.
Weight: 3.5kg

Executive Waistcoat - Bullet - Proof Level II

CODE FS 1515
A combination of excellent stopping power and low blunt trauma effect has made it possible to design this smart executive waistcoat with low weight and less bulk than is normal. Will protect against any handgun up to a .357 Magnum and is also knife-proof.
Weight: 1.3kg

Ballistic Plates

Designed to slip into the pockets of our bullet proof vests or jackets to give increased protection these plates are designed to fragment the bullets, the particles of which will be stopped by the jacket.

9MM CERAMIC PLATE	CODE FS 15189MM	Weight: 1.2kg
7.62 CERAMIC PLATE	CODE FS 1518CP	Weight: 3.0kg
LEVEL III KALASHNIKOV CERAMIC PLATE	CODE FS 1513KAL	Weight: 2.3kg
NIL LEVEL IV CERAMIC PLATE	CODE FS 1518IV	Weight: 2.3kg
LEVEL III LIGHTWEIGHT FAMOSTONE PLATE	CODE FS 1518F	Weight: 1.5kg
FAMOSTONE BB	CODE FS 92	Weight: 500 Gms

A covert suspension system that allows the user to wear a front and rear Famosstone Plate underneath a shirt or jacket.

Black Weatherproof Bullet/Stab-Proof Jacket

CODE FS 1518BLACK
The very best disguised bullet/stab proof jacket we have come across. You won't find it anywhere else and you will never find a protective jacket as smart and well disguised as this one. The jacket offers a protection level to NIJ STD 0101.04 Level IIIA and European Police Standard for Tactical Vests FPS B (1999). It also provides stab and slash-proof protection up to 25 Joules to PSDS (2003)
Weight: 3kg

Bum Bag - Bullet-Proof Level IIIA

CODE FS 1517
A unique concept in ballistic personal protection. Designed to be worn around the waist and lock unobtrusively, it can be deployed in seconds by the user to provide full frontal protection to Level IIIA.
Weight: 800 Gms

Move 8 Asset Security Device

CODE FS8MOVE
Simply attach this unit to the item that you want to monitor, or put it inside your jewellery/briefcase. Not only will you be alerted by SMS text message that the item is being tampered with, but you will then be able to phone into it and listen to what is happening around it. Powered by 1 x 9v (PP3) Battery
Size: 120 x 65 x 22 mm Weight: 120 Gms

Triband Room Monitor with Motion and Sound Activation

CODE FS3300
This is a GSM-based Triband listening device, which will operate with unlimited range in any Triband area (Europe, Asia, USA and most of the world). This unit has a built-in voice activated microphone and a wind motion sensor. As soon as noise or movement is detected the unit will send a text message to any one of 3 pre-programmed telephone numbers. It will telephone each of these numbers in turn until one of them is answered (the third number is not telephoned but a text is sent to it). The user can call into the unit at will to listen to all surrounding sounds or conversations. All the functions, including microphone sensitivity, can be set by sending the unit a text message. The package comes complete with 2 extension microphones, one PIR to detect movement in the surrounding area, a re-chargeable battery and a charger/power supply.
Size: 80 x 52 x 20 mm Weight: 50 Gms

World's Smallest GSM Transmitter

CODE FS3000
An ultra miniature quad band unit for use in Europe or anywhere else in the world where there is cellular coverage. Supplied with a high capacity Li-ion battery but can also be mains operated (100-240v AC).
Size: 63 x 41 x 21 mm Weight: 65 Gms

Ultimate GSM Miniature Transmitter

CODE ULTGSM
Simply insert your batteries and the unit starts to work. Ultra-sensitive microphone, unlimited range and 5 days of monitoring make this a superb budget priced unit. Not suitable for use in the USA.
Size: 110 x 55 x 21 mm Weight: 100 Gms

GSM Room Monitor with Tracking Facility

CODE GSMJUST
An entry level room monitoring unit which allows the user to listen into a specified area from anywhere in the world in addition the system has a built-in tracking facility, which is accessed via the internet. The microphone is fitted on to a 1 metre lead to make it easier to position the unit discreetly. Powered by 3 x AA (1.5v) batteries. This system will operate with either a Vodafone or an O2 Sim card (Vodafone recommended) - Not suitable for use in the USA.
Size: 130 x 65 x 30 mm Weight: 310 Gms

Military - Style Advanced Binoculars

16 X 50 CODE FS1215
16 X 50 CODE FS1215A
20 X 50 CODE FS1215B
Available with either 12, 16 or 20x magnification. These military-style binoculars are probably as advanced a design as anything on the market today. The lens covers simply flip open whilst remaining attached to the binoculars. The body is rubber-armed to protect against shock damage and the optics are fully coated to both reduce glare and increase brightness. Focusing is via a central ring with fine focussing via the right eye adjustment ring. Supplied complete with a neck strap and a nylon storage case.
Length: 190 mm Weight: 1.0kg

10 x 25 Combat Binoculars

CODE FS 1025
Smartly presented in a soft fabric case, complete with a belt loop, these pocket-sized binoculars offer excellent optics and a full 10x magnification. The rubber-armed housing is non-slip and helps to prevent shock damage. All air-to-glass surfaces are fully coated to reduce glare and improve brightness. Focusing is via a central ring and the field of vision at 1000 metres is 94 metres.
Size: 115 x 60 x 40 mm Weight: 330 Gms

8 x 21 Camouflage Compact Binoculars

CODE FS 821
A very compact pair of binoculars in camouflage colours, offering 8x magnification and excellent optics. Supplied complete with a neck strap, soft case with a belt loop and a lens cloth. All rubber surfaces are rubber-armed which helps them to absorb shock and also provides a non-slip surface. Glass surfaces are fully coated to improve brightness and reduce glare. These binoculars have a central focussing ring and field of view of 126 metres at a range of 1000 metres.
Size: 90 x 60 x 35 mm Weight: 250 Gms

100 x Variable Power Spotting Scope

CODE FS 1214
Designed to gather light between the 2 objective lenses which are 100mm and 25mm. The ability to switch between the 2 lenses enables the user to choose from 6x magnification in variable stages up to a maximum of 100x magnification. The 100mm lens has incredible light gathering capability making it ideal for use in twilight conditions. Perfect for hunting, sporting events, target shooting or tourism. Supplied in a smart nylon case with shoulder strap and a full tripod.
Size: 60 x 82 x 20 mm Weight: 50 Gms

10 x Monocular

CODE FS 1025
10 times magnification from a rubber-armed monocular with fully coated optics and field of view of 130 metres at 1000 metres is what you can expect from this pocket-sized monocular. Supplied with a carrying case and a limited lifetime warranty.
Size: 165 x 36 mm Weight: 200 Gms

Laser Rangefinder

CODE FS 1213
A new smaller unit that instantly measures distances of up to 1000 Metres. Accurate up to 1 metre, multi-functional in-view LCD with automatic shut off. 6 x permit-focus sighting system. Scan, zip, rain and reflective modes. Weatherproof and powered by 1 x PPS (3v) battery (supplied).
Size: 125 x 135 x 65 mm Weight: 405 Gms
